## **Details**

I will use a similar colour palette to my project piece but inverted so that it is a dark background with lighter elements on top. I want to incorporate concepts from my Immersion project and expand on them with my portfolio.

I will use Roboto and Mono as they are free google fonts that anyone can use and give a distinct feel to my portfolio.

## Colour Palette

Background page colour.
Also used for contrasting text.

Primary colour used for the top app bar and highlighting buttons within a layout.

#FF8E1B

#FFECD8

Secondary colour used for containers and differentiating sections within a layout.

#85D3C4
